Showlife discussed the conduct and actions of Guiseau at the time and immediately after the shooting, and contended they were entirely in keeping with the discusse of insuity, whith the coolness of his quietly going to bed and pescefully sleeping the night after the murder were obstacteristic of the incidents of a crime such as would be expected from su lineane man.

Guiteau caited out, "I have never had any conception of his removal as murder. My mind is perfectly blank on that question."

Sowville read from evidence of Genoral Reynolds what Guiteau had said to him in jail, that when his reasons were known to the people they would acquit him without a trial, and he should go to Europe for a year or two.

This showing is slightly unfavoralde as compared with 1880, but the past year has been one of tremendons speculation, and the money exchanges from week to week have shown that, while business has been remarkably active, there has been much reason to regret the prevalence of wild speculation, and this had no small influence on the list of failares.
